US Navy veteran with military intelligence background studying Computer Science at University of Kentucky. Interested in software development/engineering and data-analysis opportunities.
Thank you for your consideration!

Professional Experience

❖ **Intelligence Specialist (US Navy) Imagery Analyst**   **February 2009-April 2016**
- Responsible for analyzing raw intelligence, assembling intelligence briefs and associated graphics, drafting intelligence reports, maintaining and updating intelligence libraries, and communicating with federal intelligence agencies to collaborate on national-level intelligence requirements.
- Regularly briefed senior leadership on intelligence findings; translating technical data into actionable intelligence.

❖ **National Geospatial-Intelligence Agency**   **April 2013- April 2016**
- Enhanced inter-agency relationship between NGA and Defense Intelligence Agency by completing a long-standing intelligence requirement ahead of schedule; requirement had been incomplete for two consecutive fiscal years due to complications prior to my take-over.

❖ **Deployment USS Carl Vinson**   **September 2011- May 2012**
- Led successful effort to provide indications and warnings of hostile missile activity to Carrier Strike Group 1(CSG-1), awarded a Flag Letter of Commendation from Admiral T.K. Shannon of CSG-1.
- Demonstrated expansive knowledge of the areas and functions of the aircraft carrier USS Carl Vinson (CVN-70) by qualifying in the Enlisted Surface Warfare Specialization.

❖ **Fleet Intelligence Support Team**   **November 2009- April 2013**
- Led my peers by achieving highest watch-stander qualification and assumed responsibilities for all occurrences during 12-hour shift and all products sent to customers from team of 15 sailors.
- Responsible for quality assurance of products and communications with customers and partners.

Education

❖ **University of Kentucky-** Bachelor of Science, Computer Science   **December 2019(prj)**
❖ **American Military University-** Bachelor of Arts, Intelligence Studies   **May 2015**
❖ **Navy Marine Corps Intelligence Training Center-** Intelligence/Imagery Analysis   **November 2009**

Qualifications

• Linux	• Visual Studio	• MS Suite	• R Studio
• C/C++	• Python	• HTML	• Report Writing
• Geospatial Analysis	• ESRI ArcGIS	• Google Earth	• Public Speaking

- Computer-literate throughout Navy career and education; quickly becoming proficient in new software and techniques with little guidance and within short timeframes.
